WHAT IT DOES

One workspace. Many ways to feel better.

Adaptive Workspace connects productivity, wellbeing and intelligent environment control in one calm interface.

Adaptive Vision

Browser-only posture, fatigue and lighting analysis. **Live browser analysis for posture, fatigue and lighting.**

Grounded AI

Chat with your tasks and uploaded documents. **Answers grounded in your documents, tasks and projects.**

Focus Analytics

See focus sessions, patterns and progress over time. **Session history reveals patterns and progress over time.**

Private by design

Secure accounts, HTTP-only cookies and no video uploads. **No video uploads. Secure authentication. You stay in control.**

HOW IT WORKS

01 **Observe**
signals

02 **Understand**
patterns

03 **Adapt**
gently

Adaptive AI Workspace

Productivity that adapts to people.

Built for the future of focused work
